- ITIL Certificate

Profile

Having experience with a multitude of technologies and the ability to learn new technologies quickly and independantly, I can pick up and run with any Tech Stack.

I am looking for a long term position where I can continue to learn, refine, and collaborate.

Engineer Nationwide

24/JAN/2022 - 24/JUN/2022

My primary role at Nationwide was to design the server / network architecture, security, and resiliancy model for the up-grade of a core service in accordance with ISO, Government, and internal starndards.

Jira / Confluence / SQL Server / UML / ISO Standards

QA Lead Beelivory

16/APR/2021 - 17/NOV/2021

While in this role, I headed up the QA department implementing automated testing and managing a team of 5.

I also helped across the buisness with delivery / board man-agement, SQL, and teaching various development skills in the company academy.

C# / Xamarin / Azure / Scrum / DevOps / PostgreSQL

Systems Developer Laura Ashley

01/JUN/2019 - 21/MAY/2020

I was hired to convert various outdated codebases (PHP, JAVA, VB, C#) to a unified Oracle SOA system, but also maintained and updated legacy VB / C# systems.

I was responsible for all high priority SQL data edits, reports, and design work. As well as investigating and fixing any issues.

C# / VB / PHP / SQL Server (T-SQL) / Oracle SOA
