Samuel Brown

I am a full stack software developer having worked in the financial, home delivery, and comercial sectors looking for a new remote working position.

With my cross-disciplinary skills and experience in QA, DevOps, and Databasing, I work well in roles requiring high levels of adaptibility / agility.

I am able to learn new languages and technologies quickly and independantly.

.NET DEVELOPMENT
- C#
- VB
- F#

WEB DEVELOPMENT
- HTML5
- CSS3
- JavaScript
- Python
- PHP
- React

APP DEVELOPMENT
- Android (Java)
- Xamarin
- Oracle MAF

OTHER LANGUAGES
- Java
- C++
- C

SOFTWARE DEVELOPMENT

Experience with many development methodologies and design patterns having worked on web, desktop, and mobile applications.

Able to work with or without preexisting documentation.

DATABASING

SQL / SQL Server / Oracle SQL / PostgreSQL / MySQL

Database work including: design, administration, manipulation, and report development is a key strength, with a particular ability for efficient query design / refactoring.

QUALITY ASSURANCE

Unit Testing / TDD / Jenkins / Selenium / Katalon

Experience running a QA department and well versed in various testing processes and technologies.

DEVOPS

Comfortable with various version control systems.

Well versed with many Agile methodologies, and used to working closely with Delivery to produce high quality acceptance criteria.

FURTHER LANGUAGES AND EXPERIENCE

VB 6 / Oracle SOA / ARM Assembler / Haskell / Pascal / NoSQL / Visual Studio / Visual Studio Code / InteliJ / AWS / Azure / Networking / Architecture / UML / VBA

MISCELLANEOUS
- UK Drivers Licence
- BSL Finger Spelling

EMPLOYMENT

24/01/2022
-
24/06/2022

Engineer   **Nationwide Building Society**

Employed to design and advise on the upgrade of a key system within the society by implementing third party software while adhering to new standards. The role required much technical architecture and network design knowledge.

```
Jira / Confluence / SQL Server / Waterfall / Agile / Networking
```

16/04/2021
-
17/11/2021

QA Lead / Trainee Xamarin App Developer   **We Deliver Local Ltd**

While in this role, I headed up the QA department managing both UK and overseeas employees. I also helped across the buisness with board management, SQL, and teaching various subjects in the company academy, where trainees would learn various skills, languages, and methodologies to help in their roles / careers.

```
C# / Xamarin / Microsoft Azure / Scrum / DevOps / Git / PostgreSQL
```

01/06/2019
-
21/05/2020

Systems Developer   **Laura Ashley LLC**

I was hired to convert various outdated codebases to a unified Oracle SOA system, but also maintained and updated legacy VB systems, and did much of the SQL work including performing high priority data edits with little to no margin for error.

```
VB .Net / SQL Server / Oracle SOA / Agile (Tailored) / Oracle MAF
```

EDUCATION

2016

Computer Science BSc - 2:1   **Aberystwyth University**
```
Overall:  2:1 [68%]
```

2016

A Level   **York College**
```
Computing [B]  / Law [C] / Maths [C] / AS Physics [C]
```

2014

IGCSE/GCSE   **Ackworth Quaker School**
```
Maths [A*] / English Language [A] / 9 Other Subjects
```
